

CLAIMS

1. Boxer short-type article of lingerie comprising a trunk part (2) and leg parts (3), the trunk part (2) being made of a loose-fitting textile, characterized in that the leg parts (3) are made of a form-fitting textile.
5
2. Article as claimed in claim 1, characterized in that the article is made by knitting.
3. Article as claimed in claim 1, characterized in that the article is made by circular knitting.
- 10 4. Article as claimed in any of claims 2 or 3, characterized in that the leg part (3) is made using the same stitch as the trunk part (2) but with the introduction of a spandex yarn.
- 15 5. Article as claimed in any of claims 1 to 4, characterized in that it comprises a welt (4) and a waistband (1).
- 20 6. Article as claimed in any of claims 1 to 4, characterized in that the limit between the trunk part (2) and the leg part (3) is a substantially horizontal line passing through the upper part of the crotch.
7. A method of manufacturing an article according to any of claims 1 to 6, characterized in that one knits the article on a circular loom, by beginning with a bottom welt (4) and finishing by a waistband (1), and

one knits the leg part (3) which goes beyond the welt (4) with a yarn having an elasticity higher to that of the yarn used for knitting then the trunk part (2).

8. A method according to claim 7, characterized in
5 that the yarn presenting a higher elasticity is obtained through plating a non-elastic yarn with an elastic yarn.
